

SUPPLY CONTRACT NOTICE

Procurement of Srbijagas Gas Management SCADA System

Location – The Republic of Serbia

1. Publication reference

EuropeAid/135627/IH/SUP/RS

2. Procedure

Open

3. Programme title

National Programme for Serbia under the IPA – Transition Assistance and Institution Building Component for the year 2013

4. Financing

Financing agreement

5. Contracting authority

The Government of the Republic of Serbia, represented by the Ministry of Finance, Department for Contracting and Financing of EU Funded Programmes (CFCU), Belgrade, Serbia.

CONTRACT SPECIFICATIONS

6. Description of the contract

The subject of the Contract is the Gas Management SCADA system delivery, installation, testing, commissioning, training and maintenance for the Public Enterprise “Srbijagas”. SCADA system shall manage gas transport network (Pressure over 16 bars) and 178 gas transport stations. Hardware, software and necessary equipment shall be installed at two Control centers, located in cities of Novi Sad and Belgrade.

7. Number and titles of lots

One lot only.

TERMS OF PARTICIPATION

8. Eligibility and rules of origin

Participation is open to all legal persons (participating either individually or in a grouping – consortium - of tenderers) which are established in a Member State of the European Union or in a country or territory of the regions covered and/or authorised by the specific instruments applicable to the programme under which the contract is financed (see item 22 below). All goods supplied under this contract must originate in one or more of these countries. Participation is also open to international organisations. Participation of natural persons is directly governed by the specific instruments applicable to the programme under which the contract is financed.

9. Grounds for exclusion

Tenderers must submit a signed declaration, included in the Tender Form for a Supply Contract, to the effect that they are not in any of the situations listed in point 2.3.3 of the Practical Guide.

10. Number of tenders

Tenderers may submit only one tender per lot. Tenders for parts of a lot will not be considered. Any tenderer may state in its tender that it would offer a discount in the event that its tender is accepted for more than one lot. Tenderers may not submit a tender for a variant solution in addition to their tender for the supplies required in the tender dossier.

11. Tender guarantee

Tenderers must provide a tender guarantee of EUR 62 000 (sixty-two thousand) when submitting their tender. This guarantee will be released to unsuccessful tenderers once the tender procedure has been completed and to the successful tenderer[s] upon signature of the contract by all parties. This guarantee will be called upon if the tenderer does not fulfil all obligations stated in its tender.

12. Performance guarantee

The successful tenderer will be asked to provide a performance guarantee of 10% of the amount of the contract at the signing of the contract. This guarantee must be provided together with the return of the countersigned contract no later than 30 days after the tenderer receives the contract signed by the Contracting Authority. If the selected tenderer fails to provide such a guarantee within this period, the contract will be void and a new contract may be drawn up and sent to the tenderer which has submitted the next cheapest compliant tender.

13. Information meeting and/or site visit

An optional information meeting and site visit will be held on 3rd of February 2017 at 10:00 hrs, at PE Srbijagas premises at 12 Narodnog fronta St, Novi Sad 21 000.

The tenderer is advised to visit and inspect the site and location for the purpose of assessing, at its own responsibility, expense and risk, factors necessary for the preparation of its tender and the signing of the contract. The tenderer shall announce and register in writing his attendance at the information meeting and site visit in PE “Srbijagas” via e-

mail to bojan.kacanski@srbijagas.com at least 3 days in advance, submitting the information on the name of company, names of the company representatives and numbers of passports for the persons that have no citizenship of The Republic of Serbia.

14. Tender validity

Tenders must remain valid for a period of 90 days after the deadline for submission of tenders. In exceptional circumstances, the Contracting Authority may, before the validity period expires, request that tenderers extend the validity of tenders for a specific period (see para 8.2 of the instructions to tenderers).

15. Period of implementation of tasks

The period of implementation of tasks shall be 457 days from the commencement date until the provisional acceptance.

SELECTION AND AWARD CRITERIA

16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors:

- 1) **Economic and financial capacity of tenderer** (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.
 - (a) The average annual turnover of the tenderer over the last three (3) years must be at least equal to the amount of the submitted proposal;
 - (b) Current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In case of a consortium, this criterion must be fulfilled by each member.
- 2) **Professional capacity of tenderer** (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last five (5) years from submission deadline.
 - (a) At least twenty (20) staff currently work for the tenderer in fields related to SCADA system development and implementation.
- 3) **Technical capacity of tenderer** (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last five (5) years from submission deadline.
 - (a) The tenderer has delivered supplies under at least one (1) contract with a budget of at least EUR 1,500,000 **in SCADA system field** which was implemented at any moment during the following period: last five (5) years from the submission deadline.

- (b) The tenderer has delivered supplies under at least one (1) contract in the field of **gas pipeline SCADA system** (where the tenderer's proportion was greater than 50% of the submitted financial offer) which was implemented at any moment during the period of the last five (5) years from the submission deadline.

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the Contracting Authority are when the tenderer relies in majority on the capacities of other entities or when they rely on key criteria. If the tenderer relies on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

17. Award criteria

Price.

TENDERING

18. How to obtain the tender dossier

The tender dossier is available for collection from Contracting Authority on CD ROM, free of charge, which excludes courier delivery, at the following address:

Ministry of Finance
