##### II.1.4) **Short description:**

The purpose of this contract is the acquisition of wheeled containers and bins and refuse collection trucks for Public Utility Companies (PUCs) which operate under 4 different Regional Waste Management Centre (RWMC) schemes in Serbia, in order to enable these local waste operators to better organize systematic collection and transport of dry municipal solid waste fraction – separating recyclables, from households to the waste transfer stations or directly to the secondary separation line.

As a consequence, it is expected that the amount of recyclable waste in 17 municipalities will increase and that the quantity of landfilled waste will decrease, improving the municipal solid waste management in line with EU standards and Serbian legislation (specific objective) towards achievement of the Waste Framework Directive and Landfill Directive targets. This action will improve quality of life of citizens by raising environmental standards in Serbia towards EU levels (overall objective).
